Experience

Backend developer, Employer One AS (2024-01 to present)

Built a PySpark batch job on AWS Glue that turns sensor readings into daily production reports. Wrote the AWS infrastructure in Terraform and the REST API in Python with FastAPI and PostgreSQL.

Frontend developer, Employer Two AS (2023-06 to 2023-12)

Built React and TypeScript screens for a shift-planning tool.

Education

Bachelor in information technology (2020-08 to 2023-06)
